Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 23 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry with warm sunny spells after a cloudier start.

Today:
After a rather cloudy start, it will brighten up through the day with some warm sunny spells developing into the afternoon. Northern coastal districts may be a little slower to improve, with some mistiness here. Staying dry, with light winds. Maximum temperature 22 deg C (72 deg F).

Tonight:
Dry with clear spells during the evening, eventually leading to some fog patches developing. Coastal districts may be prone to mist and low cloud arriving on the light onshore breeze. Minimum temperature 8 deg C (46 deg F).

Tuesday:
Again, perhaps on the cloudy side during the morning, more so in cooler coastal districts. Brightening up with time however, with most seeing some warm sunny spells into the afternoon. Maximum temperature 22 deg C (72 deg F).

Outlook for Wednesday to Friday:
Settled with light winds through this period, with cloudy and misty starts giving way to eventual sunny spells, although damp for a time into Thursday. Temperatures a little below average.
